KIRAVANS T5 / T6 DOUBLE SEAT SWIVEL

CERTIFICATION & SAFETY

The Kiravans Passenger Double Seat Swivel for the Volkswagen T5 / T6 has been tested and approved by TUV Rheinland. Full details are available in TUV Test Report number 135XT0004-00_k02 & other item-specific TUV reports.

The double seat swivel has passed all the requirements of EC Directive 76/115/EEC as amended by 2005/41/EEC and has been certified by TUV Deutschland. This involved 'in vehicle' pull testing on a specialist rig and a 20g forward and backward SLED test.

Kiravans is an ISO 9001 certified company and we ensure that our swivels are manufactured in a similarly approved facility.

The full TUV report is available to download on our website.

KIRAVANS GUARANTEE

For Peace of Mind

Put simply, we guarantee everything we sell for 12 months.

If a fault develops within 12 months of purchase on anything you have bought from Kiravans we will replace or repair it - whichever is most suitable. If a replacement is not available we will offer you a refund.

Our liability extends only so far as the supply of the products to you. Preparation of your vehicle, surface preparation, installation, and fitting are your own responsibility and are beyond our liability.

To securely and safely install a swivel in an automotive environment usually includes heavy lifting and you may require specialist tools. If you are not confident in your own skills and experience then Kiravans recommend that you make use of a specialist campervan converter.
